State your policy on palm oil (Please provide links, upload attachments or complete the text box)
 Please provide links for reports that may be relevant to Sustainable Palm Oil.

PalmElit has created its Code of Conduct further to developing a full CSR strategy. The CoC is being

implemented. And a first report will be drafted at the end of 2012 and made public early 2013.

PE commits to sustainable palm oil through its Code of Conduct policies. PalmElit has organised a presentation at RSPO Conference in Quito (March 2012) on the theme “Improved planting material: A key factor for the sustainable development of oil palm plantations”

We have continued to include systematically in our license contracts or pluriannual seed supply contracts specific clauses as to the use of CIRAD seeds (our product) in plantation respecting the RSPO P&C. In this clause we reserve the right to withdraw from contractual supply commitment in case of lasting and non-resolved claim on non-respect of RSPO and P&C,

We are now elaborating a “Project sheet” to know better our prospective customers and evaluate their commitment to sustainable oil palm development, FPIC policies and HCV evaluation. This device will be used in 2013.

In the framework of our social commitment to smallholders, PalmElit has financed a study to understand the yield gap between smallholders and industrial planters, in Ghana and Ecuador.
